4. Yarn over the hook.
5. Pull the yarn through both loops on the hook.

Double crochet stitch

2. Insert the hook into the next stitch.
3. Yarn over the hook.
4. Pull the yarn through the stitch.
5. Yarn over the hook.
6. Pull the yarn through the first two loops on the hook.
7. Yarn over the hook.
8. Pull the yarn through the remaining two loops on the hook.

Crochet Patterns

Once you've mastered the basic stitches, you can start to follow crochet patterns to create your own projects. There are many different crochet patterns available online and in books. You can find patterns for everything from simple scarves and hats to more complex blankets and garments.

When you're choosing a crochet pattern, it's important to consider your skill level. If you're a beginner, it's best to start with a simple pattern that uses only the basic stitches. As you become more experienced, you can try more complex patterns.

Crochet Tips for Beginners

- Don't be afraid to make mistakes. Everyone makes mistakes when they're first learning to crochet. Just rip out the stitches and start over.
- Keep your tension even. The tension of your stitches will affect the look of your finished project. Try to keep your stitches the same size throughout the project.
- Don't be afraid to ask for help. If you're stuck on a stitch or pattern, don't be afraid to ask for help from a friend, family member, or online forum.
- Practice makes perfect. The more you crochet, the better you'll become at it. So don't give up if you don't get it right the first time. Just keep practicing and you'll eventually master the art of crochet.

Crocheting is a fun and rewarding craft that can be enjoyed by people of all ages. If you're new to crocheting, don't worry! This beginner's guide will teach you everything you need to know to get started. With a little practice, you'll be able to create beautiful handmade items that you'll cherish for years to come.
